Fire And Emergency Services Instructor

Synopsis

Fire and Emergency Services Instructor Eighth Edition helps students meet the job performance requirements of NFPA(R) 1041, Standard for Fire Service Instructor Professional Qualifications (2012) for Instructor levels I, II, and III. The manual also provides a reference for instructors who may perform duties outside of their current certification levels. This new edition has been reorganized to provide clearer separations between the three instructor levels: Ch. 1-9 cover Level I; Ch. 10-14, Level II; and Ch. 15-17 Level III. The text has been shortened from 22 chapters to 17. As a result, the text is more concise and easier to teach. The text reflects new changes in the NFPA(R) standard, including a discussion of bias in instructional and testing materials.

Of course the instructor changed the book and the bookstore had the wrong book. Went on line, bought this, and had it for the second class. Quick, efficient, and easy. Just what on line buying should be!

This fire instructor book is what I needed for class. It was here within days of the order. I did not

have to spend extra money on the shipping. I give it a great review. Also it was the newest edition for the class. Thanks/Jason

It's a textbook. Very dry. Make sure to have your coffee handy before attempting to read this.

This was a book my son wanted for Christmas, so I ordered it for him and he was very pleased.

Bought this for husband who is going through this training. He says "Great book!!"

Good book, excellent read for anyone in the fire service.
