Customer Reviews

This book is so lovely and interesting, will show you quick and easy recipes to enjoy delicious and healthy vegan snacks. There are lot of recipes in this book you can use to prepare these vegan snacks, and then also learn more about meditation and how it has benefit to our daily living. It also tells you all about vegan and how you can easily prepare it for those of us who likes vegan and don't know how it's prepared. I have been a vegan for a few years now, and I managed to learn how to cook. Everything I have made from the book has been awesome! This book has single handedly re-sparked my passion for baking again. I just started a Vegan diet in order to improve my health however, I had no idea where to begin in regards to recipes and comprehension. This book takes care of both aspects as it not only provides wonderful simple recipes it also provides some background information as to why people choose to eat a Vegan diet.

This recipe book has a bit of everything in it. From breakfast to dinner to desserts, smoothies and beverages. There's something for every mood or moment. I also like how it tells you how long the prep time is, the total time, and how many servings it makes. Its always helpful to know how many servings you will be making with a recipe. The only negative is that there is no pictures. I would have really liked to see some tasty looking pictures for me to compare my dishes to and see how they should come out! But overall, most of the recipes in this book are healthy and all are vegan! This book is reasonably priced and I definitely recommend that you check it out. Some of the recipes sound so mouthwatering delicious!!

This book is one of the most beautiful cookbooks I've ever come across with in . I saw this book when I was searching for the keyword vegan and thought to myself, this book is what I've been searching for regarding that matter. This Vegan diet cookbook is beautiful inside out, showcasing great and delicious recipes without ever crossing with the guilt about your calories or carbs. This book is entirely and purely magnificent and paves way for all the enthusiastic vegetarians out there. It's like a shining beacon of hope of new and fresh recipes.

I'm a new practicing vegan. Admittedly, I'm having a hard time committing to the lifestyle. My sister who's been a vegan for years was the one who influenced me, and she told me that I just need plenty of recipe ideas at the beginning so I don't feel like I'm being deprived. I was

hopeful when I downloaded this, and thankful that this turned out to be a good source of simple, mouthwatering dishes that I can try making. I view veganism as an advocacy, and books like this encourage me and help me stand by my decision.

Who says being a vegetarian is not fun and do not taste good. Well this book is going to change your very perspective of it. First this book guide is going to let us understand on the benefits that we can get on being a vegetarian. We will also learn the mouthwatering recipes in such an exciting way to prepare. The instructions are well explained. Anyone can surely follow it without any problem. The ingredients are not hard to find. We can buy them in our local grocery store.

Though I am not into Vegan but I still like and love eating Vegan foods. Well, I have been reading Vegan books and this book is really great compared to other books that I have read cause this book gives me proper instruction on Vegan Diet. The recipes in this book are also unique and by just looking at its ingredients I can really tell that it is delicious.

This book discusses about how important Vegan Diet and teach us out a lot of recipes that we could cook and taste how delicious it is. It also contains helpful and proven guides and strategies on how to cook delicious and healthy vegan dishes. I would definitely recommend this to my parents as well since they love Vegan foods!
