Customer Reviews

Looking for something different to make on your scroll saw? Then this is your book. Take a flat piece of 3/4" hardwood, using a bevel cut and these patterns, you create a fold out basket. Quite unique designs. This book contains 8 pages of instructions. The basic technique for creating a basket is the same for all basket designs, just different bevel angles and shapes. Also included are some helpful hints on making mirrors, picture frames, clocks and weather stations, all with the same design. There is also a section on how to customize the basket project with dates/names for anniversaries or birthdays. The 8 pages of color photos shows examples of different project techniques and is a great aid in what a final project looks like. A great book for unique designs and projects.

Easy to understand and follow. A great book for the intermediate worker, not the very beginner. Takes you to another level of woodworking Recommended.

Oh my, this book is really keeping me busy! So many designs and very well printed. Couldn't be

happier.

Has great traceable pattern to choose from and very easy to make.
